Chennai

SUMMARY

Accomplished Software Developer with over 2+ years of developing and implementing responsive websites. Expertise in React JS, Typescript, Javascript, HTML, CSS, and other programming languages. I have a deep understanding of web technologies, user interface design principles, and a strong passion for creating intuitive and visually appealing websites.

EXPERIENCE

Front End Developer 02/2022 - Present
Tata Consultancy Services Chennai

- Client: Lloyds Bank PLC

Worked as a team of developers to successfully complete a major software project on time and within budget

Working on typescript react based applications and also have migrated javascript project into typescript

Refactored existing code to improve readability and maintainability, resulting in a 40% reduction in development time

Built modular and reusable components to reduce code duplication and ease future maintenance with a focus on content management.

Optimised the application for performance, resulting in a 15% reduction in loading time

Developed and deployed APIs to integrate the front-end application with back-end services

Created a Continuous Integration/Continuous Deployment (CI/CD) pipeline that reduced time-to-deployment from days to hours

Interfaced with clients to identify business requirements to decide on the technical specifications of projects

Continually engaged in emerging technology research and development

Coordinated with design leads, architects, product owners and other key stakeholders to improve existing application and code creative solutions using HTML, CSS, JavaScript and React.
